THE US OPERATING SQUEEZE

US Billing Companies Cannot Hire Fast Enough to Grow

Experienced AAPC-certified coders and billing managers in the US now demand \$38 to \$52/hour. With a 38% annual churn rate, agency owners spend more time recruiting than closing new physician practices.

\$75,000 - \$95,000

Fully Loaded Annual Cost per US Billing Specialist

Salary, health insurance, 401k, software seats, and recruiting overhead consume up to 75% of agency top-line billing collections.

The Problem With Legacy Offshore BPOs

Traditional offshore firms in India sold 'cheap manual labor'—leading to high error rates, rework, missed timely filing deadlines, and zero software intelligence. US clients refuse to accept that.

THE PARADIGM SHIFT

Pure Software Fails. Pure Labor Fails. The Winner: India + AI.

01 Pure 'AI Only' Software

Black-box AI hallucinates on complex operative notes, misses payer-specific local coverage determinations (LCDs), and cannot call a commercial payer rep to dispute a clawback.

02 Legacy Indian BPO Labor

Manual keyboards, entry-level staff, high turnover, zero proprietary scrubbing software, and rigid 1-year FTE contracts that lock you in regardless of collection performance.

03 The Aethera Model: India + AI

Proprietary autonomous AI engines pre-scrub 90% of routine claims in milliseconds; AAPC/AHIMA certified specialists in India handle the high-value 10% complex appeals.

THE WHITE-LABEL ENGINE

How Aethera Powers US Billing Agencies Behind the Scenes

✓ **We Operate Inside Your Practice Management System**

AthenaHealth, Epic, eClinicalWorks, Kareo, ModMed, or AdvancedMD. Zero migration, zero software changes for your provider clients.

✓ **Autonomous 277CA & EDI Rules Engine**

Our pre-submission AI intercepts NCCI bundling, missing modifiers, and NDC units before claims are sent to clearinghouses.

✓ **Dedicated Certified Coder Pods in India**

AAPC & AHIMA certified coders (CPC, COC, CRC) dedicated strictly to your specialty books—ortho, cardio, surgery, primary care.

✓ **Transparent Weekly SLA & AR Scorecards**

Real-time visibility into clean claim pass rates, denial overturn percentages, and cash collected. Month-to-month flexibility.

TAKE ACTION

Scale Your Billing Company's Margins With Zero Risk

WHITE-LABEL PARTNER PILOT

Complimentary 50-Claim Back-Office Pilot

Send us 50 of your agency's denied or aging claims. Our AI + AAPC certified recovery team will scrub them, identify uncollected cash flow, and deliver a full audit in 14 days.

- White-label or disclosed (you own 100% of client brand)
- Month-to-month flexibility • Zero minimums for the pilot
